CONTENT MARKETING RATE CARD 2019

Expand your marketing message with engaging video content, professional brochures, perfect annual reports and strategically developed social media campaigns. This is why:

VIDEO SERVICES

3S Media offers bespoke video and editing services to serve your video marketing needs. Video has become an integral part of our digital world, with users sharing videos on Facebook and platforms such as YouTube. There is a constant flow of, and demand for, new information, which is being consumed through myriad channels, including smartphones, tablets, computers and connected TV devices.

Statistics show users devote around a third of their online time to watching videos, which cannot be ignored by businesses looking to leverage a dynamic, integrated advertising approach. Further, 90% of customers say that watching a video actually helps them make their buying decisions. With that kind of potential and effect, what business wouldn't want to take advantage of video? If your company has shot a TV commercial, this may be your initial go-to when uploading a digital video; however, because online videos can be highly targeted at a specific audience, thinking outside the box and utilising tailored messaging are essential – and so is getting more bang for your buck.

Customers are viewing so much content across various web-connected devices and platforms that it is estimated that some 80% of all internet traffic will be in the form of video by the end of this year. In 2019, how will you catch their attention?

BROCHURES

3S Media also offers professional brochure writing and design services to help you create eye-catching and technically relevant brochures.

Brochures are an ideal opportunity to draw professionals' attention with impactful headlines, effective content and attractive design.

Customised and engaging brochure content will be compiled by our experienced content writers and journalists, with brochure design put together by our expert design team.

We ensure timely delivery as per a predecided work schedule, as well as three revisions to the brochure content and design. Brochure printing services are also available.

SOCIAL MEDIA MANAGEMENT

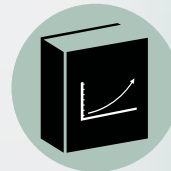

Today, social media is unquestionably among the best ways to engage with your customer and build relationships. Social media can act just like modern word-of-mouth marketing. By utilising social media channels such as Facebook, Twitter, Instagram and LinkedIn, depending on your needs, **3S Media's** social media specialists can manage and, more importantly, strategically develop your social media platforms, helping you increase brand awareness, build relationships, engage with customers, and manage targeted online advertising, as well as your online reputation.

What's more, **3S Media** will provide detailed statistical reporting throughout your campaign, so that engagement and efficacy can be quantified.

Why do this?

- Increase your SEO rankings by building your business's profile socially through content we will develop on your behalf, so that your brand is more prominent in online searches.
- Set your business apart from the competition with a professional and effective social media presence.
- Let us direct conversations that are already happening about your brand, and initiate new ones.
- Build and enhance your online reputation and digital footprint.

ANNUAL REPORTS

The annual report of a company is among its most significant documents, as it enables the business to report on and project

its performance over the period of a year. It is of vital importance to both current stakeholders and potential investors.

On the basis of the report, stakeholders are kept abreast of the performance of the business while potential investors may make their decision on whether or not to invest. To adequately and accurately convey the intended information, it has to be well written and presentable.

Leveraging our extensive editorial and technical writing experience, **3S Media** can now compile your annual report according to your brief and timeline.
